**DATE OF
RELEASE**

October
2026

English Overview

Yas Pro is Dubai's first sovereign AI media hub and digital production ecosystem. It combines an enterprise cinema equipment fleet (173 items), soundstage scheduling (Studio A, B, C, XR), direct UAE payment gateway integration (Ziina in AED with Apple Pay), UAE Mawthooq ad compliance auditing, and a dedicated self-service Client Portal.

The platform operates on serverless infrastructure via **Neon PostgreSQL**, eliminating legacy WordPress plugin vulnerabilities and ensuring sub-50ms database latency worldwide.

المقدمة باللغة العربية

تُعد منصة **ياس برو (Yas Pro)** أول مركز إعلامي رقمي سيادي متكامل في دبي مخصص للإنتاج السينمائي والافتراضي. تجمع المنصة بين أسطول معدات سينمائية احترافي (173 معدة)، وحجز الاستوديوهات المتخصصة، وبوابة الدفع الوطنية الإماراتية المعتمدة (Ziina بالدرهم الإماراتي و Apple Pay)، مع مدقق الامتثال لتراخيص الإعلانات (موثوق)، وبوابة خدمة ذاتية للعملاء.

تم بناء المنصة على بنية سحابية بدون خوادم **Neon PostgreSQL** للقضاء التام على ثغرات وبطء ووردبريس القديم، مع سرعة استجابة فائقة تقل عن 50 ميلي ثانية.

Bespoke human-crafted aesthetic: obsidian dark mode, gold accents, tactile spring physics, and split before/after color grade slider.

Automated tiered discounts: 1-2 days (full rate), 3-6 days (15% discount), 7+ days (25% discount). Zero duplicate products.

Direct integration with Ziina for Apple Pay, Visa, and Mastercard in AED, with automated VAT invoices and bank wire fallback.

Studio A, Studio B Podcast, Studio C Cyc, and Studio XR Stage with strict 09:00-21:00 conflict-free slot locking.

Specialized auditor analyzing ad copy for official UAE Media Council Mawthooq licensing and #إعلان disclosures.

Clients independently track upcoming shoot schedules, retrieve digital QR check-in codes, and download tax invoices.

Neon PostgreSQL serverless architecture: sub-50ms queries, better-auth session security, zero WordPress vulnerabilities.

Physical Left-to-Right Navbar, Footer, and Brand Logo anchoring ensures Arabic mode reads naturally without flipping menus backwards.

TABLE NAME	ROW COUNT	CONTENTS & SPECIFICATIONS
